THE VOICE OF CONSUMERS

Fighting for strong consumer rights,
fair markets, and safe products
and services

WHO WE ARE

...❖ The Federation of German Consumer Organisations (Verbraucherzentrale Bundesverband – vzbv) is the voice for more than 80 million consumers in Germany. As the umbrella organisation for German consumer associations in each of Germany's 16 federal states, and for 25 other member organisations, vzbv channels the strengths of its members to promote strong consumer protection. Our work is backed by a number of individuals and nine organisations who are supporting members.

Our goals

- A better position for consumers in the social market economy
- Clear and uniform rules for all market players
- Effective competition on price and quality that provides true freedom of choice in transparent markets
- Safe products and services
- Clear consumer information
- Reliable, enforceable consumer rights
- Promotion of sustainable consumption
- Upholding the precautionary principle, including in international free trade agreements

Consumer policy should address people's everyday concerns.

Klaus Müller, vzbv Executive Director

HOW WE WORK

...✦ **vzbv operates at both European and international levels and has an office in Brussels.** vzbv is a member of the umbrella organisation of European consumer organisations, Bureau Européen des Unions de Consommateurs (BEUC), and of Consumers International (CI), an international federation of consumer organisations.

...✦ **vzbv is a not-for-profit organisation, politically impartial, and solely committed to representing the interests of consumers.** vzbv was established in 2000 as the result of the merger of three federal consumer organisations.

VZBV IS A NOT-FOR-PROFIT ORGANISATION, POLITICALLY IMPARTIAL, AND SOLELY COMMITTED TO REPRESENTING THE INTERESTS OF CONSUMERS.

...✦ **vzbv is funded by the Federal Ministry of Justice and Consumer Protection, and through project funds and member subscriptions.**

...✦ **Our Market Watch and Food Transparency projects and the provision of energy advice through German consumer associations are key elements of our work.**
